Mastella
BATHROOM FURNITURE

THE MASTER ITALIAN CRAFTSMAN OF BATHROOM FURNITURE COMES TO SOUTHEAST ASIA

This feature will bring a big smile to many interior design professionals. We understand that some trade professionals have feedback on a lack of quality bathroom furniture options in the market. Where possible, they prefer to specify a high-quality bathroom vanity solution available in different sizes, matched with superior aesthetics and combined with a possibility to bespoke the

product in unique finishes. We now have the answer in the Mastella LUME Collection.

LUME is a collection of bathroom furniture complete with basin of pre-defined dimensions. LUME is characterised by:

- Pre-defined dimensions: 60cm, 70cm, 80cm, 90cm, 100cm and 120cm.
- 26 unique finishes.
- Inset fronts.
- Drawer opening system without handles.
- Open shelf area available in colour combination.
- Includes wooden drawer divider.
- Includes space saver trap.
- Stainless steel towel rail of stunning shape and great effect.
- Without junctions.
- Integrated basin in ceramic with deep bowl and counter space on each side.
- LUME is a collection with short lead-time of 4-6 weeks.

A BIG WELCOME TO MADE-TO-MEASURE ITALIAN SHOWER ENCLOSURE SOLUTIONS FROM VISMARAVETRO

Pivot Swing Door Configuration

Vismaravetro - A top Italian producer of made-to-measure shower enclosures since 1947 is now available exclusively in Southeast Asia ("SEA") through Equip-Bathrooms (a company of EQUIP GROUP).

These high quality Made in Italy shower enclosures are unrivalled in the niche shower area of a bathroom space. Vismaravetro shower enclosures are perfect for residential and hospitality developments. Considering that a majority of the shower enclosures installed in the region are mostly locally fabricated and lack the latest industrial innovation and technology to differentiate the quality, safety and aesthetics of the shower enclosure product in question, we intend to make a change to the status quo and raise the standard of specifications with regards to the shower enclosure product.

In the coming weeks, we are unleashing a knowledge sharing campaign using a professional 7-part video episode to INFORM, EXPLAIN and INSPIRE our customers in SEA to rethink their shower enclosure specifications. You can view the 7-part video episodes at: <https://www.vismaravetro.it/en/about/7-Building-a-shower-enclosure>

iB RUBINETTI

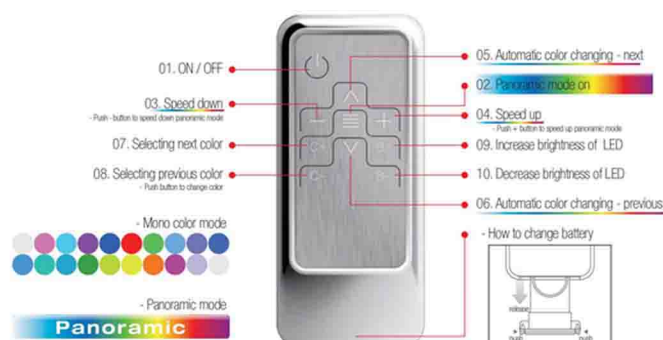

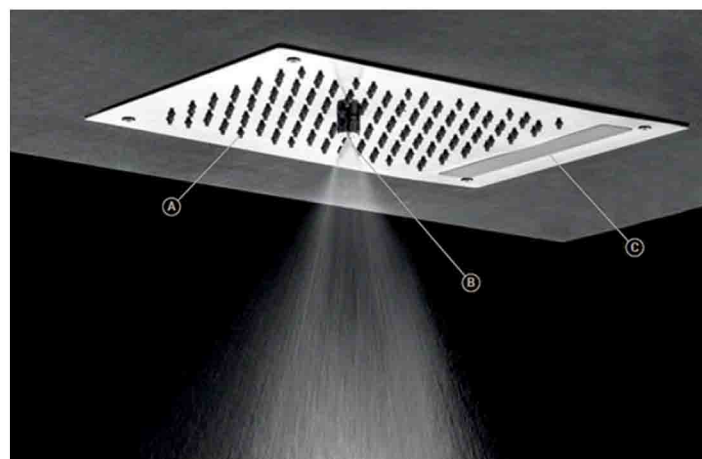

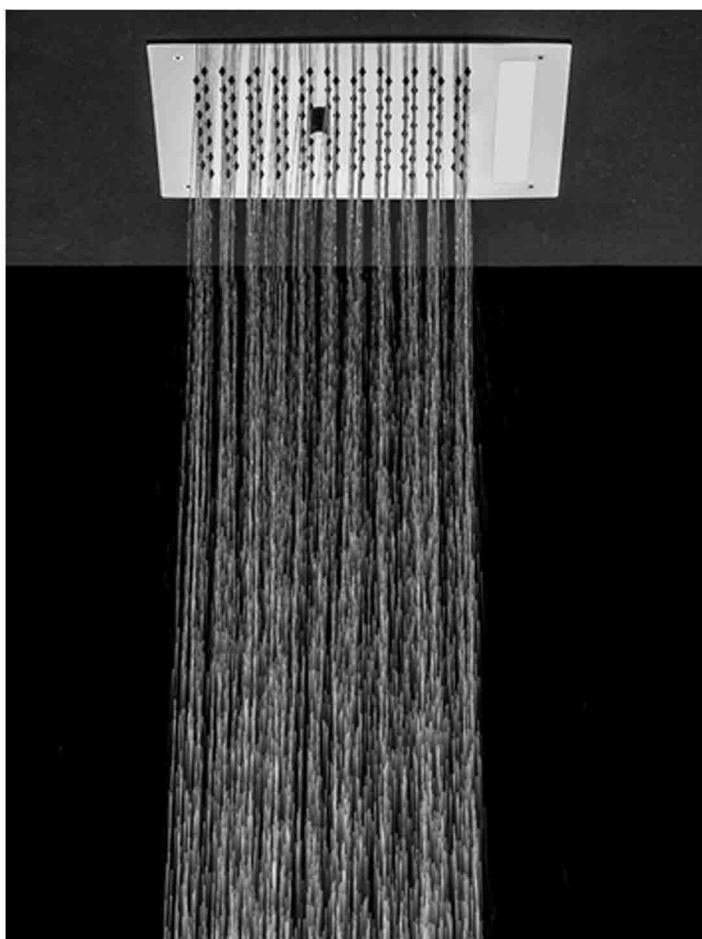

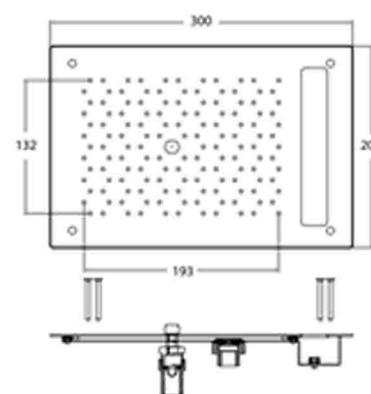

A COMPACT CEILING SHOWERHEAD WITH LED LIGHTING AND MULTIPLE SPRAY FUNCTIONS FOR SMALL BATHROOM SPACES

In Asia, many bathrooms in residential or hospitality developments in urban cities tend to have smaller shower spaces. As such, it may not be the most practical approach to specify a luxury built-in ceiling showerhead with LED lighting and multiple spray functions, as these showerheads tend to be larger in size (upwards of 400 x 400mm).

iB Rubinetti recognises this space constraint and has developed a compact solution to address this issue. We present the Aquabeat Series AB100 built-in ceiling showerhead that comes with LED lighting and 2 spray functions: Rainfall and Vaporizer. This Aquabeat AB100 showerhead measures just 300 x 200 mm and fits perfectly into any small shower space. You can control the LED lighting via a water-proof remote control that allows the user to switch between 20 different colours and select the intensity of the lighting at the touch of a button. Luxury can now be enjoyed in a compact package.

WHEN NATURAL MARBLE TRANSFORMS INTO A BEAUTIFUL ART FORM

Abyss Collection from Serafini Marmi is an iconic bathroom washbasin with a simple and minimal style that is characterised by a defined, yet irregular cut that disrupts the surface. It is made of marble - an ancient and precious material. Inside the cut, a rounded surface slightly appears, placed as a water breaker, preventing the formation of splashes and regulating the water flow. The water is directed towards the waste drain, assisted by the levelled slope. Abyss is also equipped with a perimeter channel (at the top) for water to drain away. This unique washbasin can be installed as a wall-hung specification or placed on a vanity counter top.

As a luxury washbasin, you can bespoke Abyss in different types of marble (5 classes in total – see below) differentiated by colour, vein patterns and texture. Class 5 marble selections being the most premium of the range. Furthermore, you can also customise the colour of the internal portion of the washbasin. Made in Italy.

Dimensions: L120 x W55 x H15 cm

Technology & Innovation

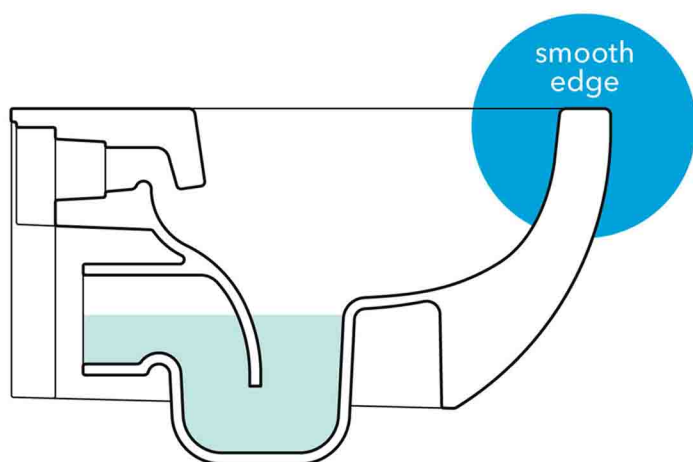

➔ **FLAMINIA.**

THE UNIQUE SYSTEM CREATED BY FLAMINIA TO MAKE TOILET CLEANING, SIMPLE AND RAPID

The elimination of the rim (so that the inner surface of the toilet bowl is entirely visible, with no hard-to-reach hidden parts) and a controlled amount of water discharged with each flush (of between 4.5 and 6 litres as required by the applicable regulations) ensure greater hygiene and much greater ease of use than traditional systems – two features of vital importance to any domestic or public bathroom.

360SSES LAUNCHES NEW DESIGN & LIFESTYLE MAGAZINE AT MASERATI SHOWROOM, SINGAPORE

360sses (read 3 bosses) launched the inaugural issue of their Design & Lifestyle Magazine in August 2018 with an exclusive and intimate sit-down dinner event for its well-heeled guests at the Maserati showroom. American-Thai host, model, TV presenter and Le Cordon Bleu-trained chef, Angela May, from the Deliciae Hospitality Management group was present to introduce the evening's exquisite Italian dinner menu. A key dinner highlight was a live station helmed by Executive Chef of Forlino, Matteo Ponti, lighting up the parmesan wheel and garnishing summer black truffle on the delicious Risotto Asparagus e Tartufo.

360sses Consortium is a collaboration between various Singapore SME companies of different disciplines that are leaders in their areas of specialisation. The founding team of 360sses are Singaporean entrepreneurs: Andrew Tan (from Atomi/Actus Hause), Alvin Loh and Adrian Loh (both from EQUIP GROUP).

This 360sses collaboration is built upon a common vision to provide customers with home and lifestyle products of outstanding quality, beauty and uniqueness. 360sses aims to create a holistic interior house decoration experience amongst its consortium members, so that its customers can benefit from bespoke interior furnishing solutions, competitive pricing and excellent customer service.
