ABOUT US

The EQUIP GROUP is a multi-disciplinary business that is passionate about creating beautiful homes, hotels and office spaces. Our core supply business focuses on two key product categories:

1. Door Locks & Ironmongery
2. Bathroom Sanitary Fittings, Wares & Fixtures

Our Value Propositions

Technical Expertise

We place a high degree of emphasis in providing our customers with accurate technical and installation advice. This ensures that all our luxurious Lock and Bath products are properly installed, so that they can perform their functions reliably and also to respect our manufacturers' warranty promise.

360° Supply Solutions

We carry an extensive range of reputable Lock and Bath brands from Europe, USA and Australia that are product leaders in their specific area of supply. Our focus is on supplying to residential and hospitality developments to add value in design and quality. Customers also benefit from the R&D and innovative technologies that are constantly developed by our manufacturers.

Customised Possibilities

We understand the need for personalisation to differentiate one home/hotel from another. Therefore, we are a leader in providing our customers with customised possibilities to creatively transform their living space. Select from a wide range of designs and unique finishes to complement your interior design concepts. If you can dream it, we have it.

A FOCUS ON SOUTHEAST ASIA

We now operate in 7 different countries; Singapore, Indonesia, Malaysia, Thailand, Myanmar, Laos and Vietnam. Our operations in Indonesia, Thailand, Myanmar, Laos and Vietnam are run by partner arrangement.

CUSTOMISE YOUR HOME WITH BESPOKE LUXURY DOOR LOCKS & IRONMONGERY

EQUIPDESIGN

Residential Supply

At Equip-Design, we provide homeowners with a wide range of customisable options to select high-quality door locks and ironmongery that complement different interior design concepts. We provide end-to-end solutions to give you a hassle-free shopping experience.

Why Choose us?

- Make your selections from the best imported brands from USA, Europe and Australia.
- Competitive pricing because of our superior supply chain management direct to the factories.
- Specialist team of lock experts to provide technical advice and installation services.
- Key duplication, Master Keying and Key-alike services available.
- High-security cylinder upgrade packages available.

BALDWIN®

BALDWIN is the most luxurious door hardware and ironmongery brand in the world today. Its strength lies in its superior forged brass production process that removes any imperfections in its products. In addition, its strong customisable range of solutions in the areas of design and exquisite finishes allows design professionals and homeowners to create a unique solution all the time. Below, you will find the step-by-step processes on how BALDWIN creates their high-quality door hardware from the raw material to the finished end product stage. Nothing else comes close. It must be a BALDWIN.

HOW IT'S MADE

At Baldwin, we believe that quality should never be a compromise. From using the finest materials to crafting our hardware by hand, we are committed to creating high-quality hardware that not only looks beautiful and flawless but also endures the rigors of time.

EVOLUTION OF A DOOR KNOB

CUT

A billet of brass is cut from bar stock of the correct diameter.

FORGED

The knob's shape after the heated billet is pounded into the die.

TRIMMED

A stamping press takes off the thin metal skirt leftover by the forge.

GROUND

An abrasive grinding belt strips off forge oxidation.

POLISHED

Polishing wheels smooth away the grinding marks.

FINEST MATERIALS

Before the hardware takes its shape, we begin with raw bars of solid brass. Brass is a highly dependable and durable metal that naturally resists corrosion. Holding a piece of solid brass Baldwin hardware in your hand, you will immediately notice the difference – it is heavier, stronger, and smoother than hardware that is made of aluminium or plated steel.

FORGED TO LAST

Skilled artisans transform raw brass to beautiful hardware through an age old and time-tested technique known as heat forging – pounding hot metal into a specially made die. In contrast to the simpler forging technique known as casting, heat forging requires more intensive work and careful attention to detail, but it produces stronger, heavier products.

SMOOTHING OUT ROUGH EDGES

Before the hardware can be finished, it gets a trim. Skilled operators work the stamping press that trims the extra metal left by the forge. Then, another machine grinds the surface to remove oxidation created from the forge, revealing the smooth metal.

THE FINISHING TOUCH

Baldwin hardware comes in a full spectrum of over 20 lustrous finishes ranging from glossy to matte, smooth to textured. Depending on the desired look, whether clean and minimalistic or well-worn and vintage, the hardware will go through a very different process.

POLISHED TO SHINE

In the final step of production, our hardware goes through two stages of polishing – the first to thoroughly remove any imperfections such as scratches or nicks and the second to buff the hardware to a flawless shine. In the first stage, fast spinning wheels wipe away potential scratches left by the forge. Then jeweller's rouge is used to carefully buff the metal.

LUXURY DIGITAL LOCKS WITH BESPOKE OPTIONS

BALDWIN®
EVOLVED.

Smart Never Looked So Beautiful

Experience the bold evolution of luxury hardware with Baldwin Evolved, the next generation of smart handlesets and deadbolts blending exquisite architectural designs with Kevo technology.

Touch - to - open Bluetooth technology and key fob access offers convenience and peace of mind.

Easy - to - use app provides eKeys for remote access, real-time access history and remote unlocking abilities.

Evolved connects through advanced bridge technology allowing users to easily open and close doors via their smartphone and the Kevo mobile app.

Control Baldwin Evolved Locks From Anywhere.

Available for iOS & select Android devices, the smart lock app controls Baldwin Evolved right from your smartphone or tablet. Grant access with eKeys and monitor who is locking and unlocking. Quality is evident in the array of bold designs and finishes available today.

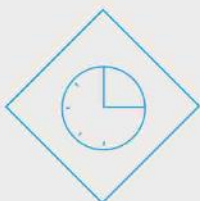

Everyday Use

Built for versatility, eKeys are perfect for your family because they can be reassigned from person to person as an anytime or a scheduled eKey.

Time-Fencing

With pre-set day and time limits that you control, the scheduled eKey is perfect for regular visitors, like dogwalkers, house-cleaning services, or repairmen.

24-Hour Access

Give your guest unrestricted access to your home for 24 hours. Guest eKeys can be resent to anyone as needed and after a 24-hour period, they will automatically be deleted.

BEAUTIFUL BATHROOMS EVERYDAY

The bathroom space is highly personal and we adopt a stance that good design and quality can never be compromised. Being true to our values, we work only with the top manufacturers from Europe to curate a total solution in realising the perfect bathroom for you.

360° Bathroom Solutions

CREATING BEAUTIFUL BATHROOMS THAT ARE UNIQUE

We have many unique solutions to create projects that stand out.

Combine natural marble with brass metal that can be bespoke in more than 16 exquisite finishes.

Customise your ceramics in different colours.

Innovative materials used to produce our washbasins allow us to realise many interesting shapes and finishes.

Made from specially treated water-repellent wood, Mastella bathroom furniture is perfect for the humid bathroom environment.

Made-to-measure Italian shower enclosures systems set the new standard.

Choose from 194 RAL colours to customise your luxurious volcanic limestone baths.

MADE-TO-MEASURE ITALIAN SHOWER ENCLOSURES

Keeping the bathroom dry with bespoke Shower Enclosures or Shower Screens

Vismaravetro is a proven Italian producer of high-quality shower enclosures and shower screens since 1947. The Vismaravetro shower enclosures are divided into several product collections, all with a strong connotation of interior design. All enclosures allow the possibility of diversified choices, always ensuring impeccable and efficient solutions in relation to their water-tightness and durability. Most importantly, Vismaravetro shower enclosures and shower screens are Made-to-Measure, ensuring that any space can be accurately addressed with a Vismaravetro solution.

Why Choose Vismaravetro?

- Made-to-Measure solutions
- Ability to customise
- Anti-limescale treatment on tempered glass for ease of maintenance

100% personal

Vismaravetro shower enclosure units are underpinned by a complex and highly versatile design. Size, position of the technical compartment, shower tray and type of opening can be changed. **Handles, profiles, hinges and glass can also be customised.**

(Above): Shower enclosure with pivot swing door configuration

(Above): Shower enclosure with one fixed panel and bi-fold door configuration

(Above): Shower enclosure with sliding door configuration

(Above): Shower enclosure with two fixed panels and two sliding doors configuration

Tempered Glass

All Vismaravetro shower enclosures are made of 6mm or 8mm tempered glass (depending on the collection). You can select from 8 different types of crystal to customise the shower units. The tempered glass also complies with international safety standards.

An Innovative Technology for Protecting the Glass Surfaces

The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. This TPA treatment helps with the cleaning and removal of the lime scale deposits and residues from the glass.

Bespoke colours for aluminium profiles

You can further personalise your shower enclosures or shower screens by customising the aluminium profiles in 14 different finishes. Below are two popular finishes selected by our customers.

(Above):
Linea Collection,
Full-frame option in Matt Black finish
Project:
D'Leedon Condominium, Singapore
